DIAGNOSTIC SCREENING AND TREATMENT EYE CAMP

GREENKO BUDHIL HYDRO POWER PRIVATE LIMITED, CHAMBA, HIMACHAL PRADESH

Under the health related CSR activities, a free Diagnostic Screening and Treatment (DST) Eye Camp was conducted by Greenko for the neighbouring community of its Greenko Budhil Hydro Electric Project (70 MW) in Bharmour Tehsil, Chamba District, Himachal Pradesh. The main objective of the camp was to provide medical eye care service to the local community unreached with these services and provide surgical eye care service to the patients diagnosed with cataract and other refractive errors to eliminate avoidable blindness. The eye camp covered the residents of nearby 15 to 20 villages falling under project Panchayats.

The Eye Camp was organized in association with Mela Mal Sood Rotary Eye Hospital, Maranda, Palampur. This hospital is the largest and well-equipped eye care service centre in Himachal Pradesh rendering its manifold ophthalmic services to cure and prevent the avoidable blindness and bring a transformation for the betterment of the society.

Screening Camp

The screening camp was conducted on 21st May 2017 at Greenko Office, Thalla Village, Bharmour Tehsil, Chamba District, Himachal Pradesh. A seven-member professional team including 2 eye specialists namely Dr Rohit Garg and Dr Siddharth accompanied with 4 efficient technical staff have provided their services at the Eye Camp. All the medical equipment for screening and examination of the patients was brought by the Hospital Team.

Prior to the camp, advance information was given to the local's through banners that were displayed at the strategic locations of the neighbouring villages, announcements through megaphone were made and pamphlets were distributed among the local people. At the venue display of signs showing the directions to the patient registration; doctor room; technician room and others were made. Arrangements for sufficient number of vehicle were made to pick up and drop the patients from their respective villages.

The diagnostic and screening camp commenced at 9:30 a.m. with incoming patients registered at a registration desk where their details, along with name, age and other were noted. They were then directed to the Doctors room for screening of the eyes using the necessary equipment's. After the initial screening, the patients diagnosed with refractive errors were directed to the designated technician room for vision test. The patients diagnosed for cataract & other eye surgeries were examined in detail by other technician for general health condition including Blood Sugar (Diabetes), Blood Pressure (Hypertension) etc. Other patients requiring minor treatment were given specific medicines such as eye drops free of charge for ophthalmic diseases.

A total of 408 people (198 Male, 168 Female, 49 Children) availed the services of the above camp. A large number of the patients have come from neighbouring villages of Panjsei, Seri, Fanar, Lahal, Dhurenka, Ghared, Luni, Khani and Bharmour town. The Doctors' team screened and checked the eyes of all the 408 members using the medical equipment's they brought. Out of 408 people screened, 53 members (31 Male + 22Female) were selected for cataract & other eye surgeries. The surgeries will be undertaken at Rotary Hospital, Palampur.

The authorized representative of Greenko issued relevant letter for patients diagnosed for eye operation at the Rotary Hospital. The patients are given a month time i.e up to June 30th 2017 to avail the services at the Hospital. Greenko is bearing all the costs of Surgery, post-operative Medicines for the patients and Hospital authorities are providing accommodation and others at the Hospital free of charge. Post-operative follow up activity will be organized for the needy patients by the Hospital authorities.

The camp ended at 3.00 Pm and during the camp, drinking water, tea and biscuits were provided to all patients and their attendants at waiting area. Village level representatives such as Pradhan from the neighbouring Panchayats were also present in the Camp. The local print media covered the event.

The above screening camp was successfully completed with the support of around 35 Greenko employee's representing the Budhil Plant and other proposed projects who have volunteered to provide their services in organizing the camp. They played a significant role in the success of the camp specifically the care and assistance they provided to the elderly and the hospitality that was extended to all the patients was deeply appreciated.

The coordination of the camp activities was undertaken by the cluster and site level HR Team. The overall guidance and supervision for effectively organizing the camp was provided by Plant In-charge along with the participation and inputs from the representatives of the Corporate CSR Division.

As part of the post camp feedback in the local villages it was noted that the local community members, public representatives, local health administration appreciated the efforts of the Greenko Group in providing the eye care services to the local people. They also requested the local site authorities for organizing such specialized health services camps as they are not available at local health facility. The overall feedback suggested that the above initiative has spread a positive message about Greenko Group.

Surgery Camp

The surgery camp was conducted at Mela Mal Sood Rotary Eye Hospital, Palampur, Kangra District, Himachal Pradesh. Rotary Eye Hospital is providing quality and affordable eye care to the poorest section of the society with the latest equipment's and technologies by the apt surgeons. It provides advanced level of diagnostic and therapeutic services in the field of eye related diseases to the mankind to survive and sustain.

Prior to the surgery camp, advance information was given to the patients to prepare themselves for the surgery at Palampur. At the Rotary Hospital all the necessary arrangements for stay and food for the patients was made by the Hospital authorities. Of the total patients identified 24 underwent Cataract Surgery i.e Cataract Extraction with IOL implantation, 04 underwent Pterygic Excision with Conjunctival Autograft 01 of them underwent Dacryocystorhinostomy (DCR). A professional team of dedicated doctors and technicians under the leadership of senior Ophthalmic Surgeon Dr Rohit Garg have conducted the necessary cataract and other surgery for the identified patients. The team successfully conducted the operative procedures and managing the medical support activities at Rotary Eye Hospital.

All the operated patients were given black spectacles with necessary medicines free of charge. They were given instruction and counselling about medicines and post operative care to be taken for protecting the eyes. There were no post-operative complications and all patients were provided discharge cards. Greenko is bearing all the costs of Surgery, post operative Medicines, Glasses etc for all the patients who underwent surgery. Post operative follow up activity is organized for the needy patients by the Hospital authorities.

At time of discharge of patients Greenko authorities also counselled the patients for the eye care and other general precautions to be taken to protect the eyes. The surgery camp was successfully completed with the assistance and overall supervision and monitoring of Greenko's Budhil Site Management and volunteers. The Doctor's team, the technicians, the nursing staff and hospital management of Rotary Eye Hospital with their eye care services and cooperation played a major role in overall success of the surgery camp.

Greenko's above free DST Eye camp has got an overwhelming response from surrounding villages of its Hydrel Plant. This camp achieved a 100% success rate with no post-operative complications. This camp not only provided opportunity for specialized eye care services for the locals but also supported people with other needful surgeries in screened out patients with cataract and other refractive errors to eliminate avoidable blindness.
